

Kids Play Space Capsule

Kevin Honeycutt

Classroom construction project! Try coupling this with some fun science extensions!

HoneyFunnCreations2023

Are you ready to build a cool space capsule?

**Ready to
build a space
capsule?**

**I get to take
this home!**

3. Time

Kids Play Space Capsule

Kevin Honeycutt

Classroom construction project! Try coupling this with some fun science extensions!

Once you figure out how to cut and fold the flaps, they insert right into the slot in the next panel!

Then you unfold the tabs and the joint locks!

There is a lot of scissor work in this activity but the outcome is worth it!

Kids Play Space Capsule

Proof of concept sketch of tab and slot based, parent/kid constructed capsule.

HoneyFunnCreations2023

Everything you need to build this rocket with your kids is in this PDF.

Just keep cutting, folding, inserting and unfolding. You'll start to see your capsule coming together!

Kids Play & Learn Space Capsule

Slot based, parent/kid/teacher constructed capsule.

HoneyFunnCreations2023

The slots are important!
If you fold your panels
perpendicular to the
slots you can cut them
with the scissors more
easily!

Kids Play Space Capsule

(top and bottom)

The tops and bottoms have lots of tabs and slots but you can do this! Take your time and if a slot ever rips just tape it back together with scotch tape!

Kids Play Space Capsule

(Extensions and resources for further learning)

What else can you learn? What problems can you solve? What else can you build?
